**Maker Notes & Tips:**

- Gauge is essential for these **elbow length wrist warmers crochet pattern**! Take the time to create a swatch to ensure your finished pieces match the intended 17-inch length.
- As these warmers are worked in the round but turned after each round, keeping track of your Right Side (RS) and Wrong Side (WS) is crucial for stitch consistency.
- When you divide for the thumb opening, remember that you switch from working in joined rounds to working in rows. Don't forget to return to rounds after shaping the opening!

### FINISHING, BLOCKING & GARMENT CARE

#### Weaving Ends & Assembly

Weave in all remaining yarn tails securely on the wrong side of your **elbow length wrist warmers crochet pattern**. Take care to hide them neatly within the stitches, especially around the thumb opening, for a polished finish.

#### Blocking for Perfect Drape

While these warmers are quite forgiving, a gentle steam block can really help relax the fibers and even out your stitches. Lay them flat to the finished measurements and lightly steam, or spritz with water and let them air dry to perfection. This helps enhance the drape and overall look.

#### Washing & Garment Care

To keep your beautiful **elbow length wrist warmers crochet pattern** looking their best, hand-wash them in cool water using a wool-safe detergent. Gently squeeze out excess water, then roll them in a clean, dry towel to absorb more moisture. Lay them flat on a clean surface, reshaping to their original dimensions, and allow them to air dry completely. Avoid hanging, as this can stretch the fabric.
