Submerge the blanket in lukewarm water with a small amount of dish soap/baby soap or woolwash. Allow it to soak for about 25-30 minutes, letting the fibers relax.

Squeeze out as much water as possible without twisting. Roll the blanket tightly in a clean towel to press out excess moisture; repeat with multiple towels if needed. Lay the blanket out on blocking mats and pin it to the finished measurements. Allow it to dry thoroughly, which may take 24-48 hours depending on humidity.

✨ Washing & Home Care
